

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I urge you to reject the proposal to move the USF collection system to a flat-fee. We are already paying at least four times more for our phone service since the "deregulation" that was supposed to make our lives so much better and has done nothing but made our lives so expensive its impossible to keep up.

Keep the USF Fair!

Sincerely,

Beverly Simonelli 1769 Simonelli Road Muskegon,MI 49445-8605
